What is On-Side?

On-Side is a sideways printing program written for the IBM Personal
Computer and PC-compatible computers. If your printer is compatible
with the Epson/IBM Graphics standard (most PC printers are), then you
can use On-Side to print reports down the page instead of across, and
in a variety of character font styles.

Files included on the On-Side diskette:

```
             1    README.PRN
             2    ONSIDE.EXE
             3    BOLD.FNT
             4    DUVALL.FNT
             5    NORMAL.FNT
             6    PICA.FNT
             7    SMALL.FNT
             8    TINY.FNT
             9    VOGUE.FNT
             10   DEMO.PRN
             11   USRGUIDE.PRN
             12   RESPONSE.PRN
             13   ORDERFRM.PRN
             14   ORDER.BAT
             15   PRINTDOC.BAT
```

The ORDER.BAT file on the Program Diskete can be used to print an Order
Form and Mailing List form. Use the Order form to order the latest Disk
Sets and Registered Copies of Expressware programs. Use the Mailing List
Form to send us your address. We will add you to our mailing list, and
will notify you of future updates and product announcements. The form
may also be used to send us comments about our products.

If you have received this copy of On-Side from a friend, please take
the time to send in the Mailing List form. To print it, make sure your
printer is on, and the printhead is at the top of the paper. Then type:

                             ORDER

To print the User's Guide, type:

                             PRINTDOC
