about the support bulletin

The support bulletin is a quarterly technical journal published by NeXT Computer, Inc. Its goal is to provide timely technical information to help you better support your NeXT network or user community.

Each support bulletin includes a floppy disk that contains an electronic version of the bulletin and NeXTanswers, a comprehensive library of technical information. The disk is designed to be used with NeXT's Digital Librarian so

you can easily access information on specific topics by means of keyword searches.

NeXTanswers provides responses to common (and sometimes uncommon) technical questions. Formatted as question-and-answer pairs, topics include system administration, programming, and NeXT applications.

If you'd like to subscribe to the support bulletin or inquire about subscriptions, please use the order form support_bulletin_order_form.ps found in the 92_summer_bulletin folder.

If you have editorial suggestions or comments, we'd love to hear from you. Please e-mail us at support_bulletin@next.com or write to
