

Questions about the NeXT 400 DPI Laser Printer

Q: Can the cable for the NeXT Laser Printer be extended somehow?

A: No. There will be too much signal skew.

QA433

Valid for 1.0, 2.0, 3.0, 3.1

Q: What is the maximum weight of paper you can use in the NeXT Printer?

Q: What is the maximum size and number of pages you can use in the NeXT Printer?

A: Different countries use different paper measurement schemes.

In the United States, paper weight is traditionally measured in "pounds per square foot."

In Europe it is measured in grammes per square meter (gsm).

- **Maximum Paper Size/Weight**

Cassette feed

60-80 gsm paper (Grammes per square meter or g/m²)

or

34 pound paper

Manual feed

Plain paper from 100mm x 175mm to 216mm x 356mm (60 gsm to 128 gsm).

- **Cassette Capability**

A4/Letter selection (Depth: 16mm - approx 150 sheets of 80 gsm paper)

QA770

Valid for 1.0, 2.0, 3.0, 3.1

Q: When shipping a printer, what has to be done to move it safely?

A: Remove the toner cartridge and place it in its own box. If left in the printer, all of the

toner could spill out. If you still have the tabs which were removed from the printer when it was first unpacked, place the tabs back into the unit. See the "Setting Up the Printer" Chapter in the Getting Started manual for printer setup information.

QA215

Valid for 1.0, 2.0, 3.0, 3.1
