

January 2000

"Teddy Bear Os Replacment"

Collection Intro

This is the first icon release since the birth of my son Nathan and the first IconHQ collection of the 21st Century. Also, these little teddy bears are my icon entry in the Pixelpalooza Y2k contest hosted by the Iconfactory, hopefully a winner.

* A special note*

The icons are best viewed as 32-bit icons, especially the smaller 16x16 list view icons. 16-bit icons are included for pre 8.5 systems.

Legal Note

"Teddy Bear OS Replacment Collection" is copyright © 2000
Gary Larocque.

The icons included are free and can be distributed provided that the entire package remains intact. No fee of any kind may be charged for these icons. To include these icons on a CD or web site please notify me along with a copy of the distributed CD.

One Final Note

I'd like to dedicate this collection to Nathan Paul Larocque, my first child.
