

Thank you for downloading my icons.

I just want to say a few things you might want to know about.

I will be releasing a set of folder icons based on the items in this drives set.

If you think I missed a kind of hard drive, let me know.

I will not make removable drive icons because I do not own one and it has been done.

If you have any suggestions about new icons, use the forums at Xicons. But if you would like me to create a request in my own style, then email me.

I will do requests for hotline accounts or good info on where to find quality clip-art.

If you know of hotline servers with my icons, hook me up with an account.

Once OS X is released, I will get serious about icons and create some really cool things.

Vote for me in the next contest held at the end of every other month at Xicons.com.

If you need to contact me, my email address is:

carlito@mac.com

This set is for your own personal enjoyment. It is not to be distributed by anyone other than Xicons.com. You will need permission from me to include any set I have made anywhere on the web or on CD, unless it is your own private backup.
