WTouch - a Win Utility to reset Date/Time for Files
Description:
WTouch is a simple utility to reset the date/time stamp on a group of files to the current system date/time.

Prerequisites:
Uses Win3.1 common dialogs.

Installation:
Copy to any directory and launch as you wish.

Use:
Click Select Files on the menu bar to bring up a file selection dialog box. Navigate to your target drive/directory and select one or more files from the file list box. Click OK to close the box and confirm your selection.
When you've chosen your files, click DoIt from the menu bar, and the date/time stamp of the selected files will be reset.

Disclaimer:
You use WTouch entirely at your own risk. Only you can determine its suitability.
