YOU HAVE BEEN WARNED

Disco Spirit

The criminal masterplan is finally working out as megatons of wasted earthlings unknowingly donate their wits to the devious forces of the Un-Dead mastering the DiscoTeghue-phenomena. On every dance floor a Phantom lurks, absorbing the energies and processing capabilities of the dancers, which are held in BrainDead() subroutine meanwhile. And as the seconds rot away the Dominion of the Dead grows stronger...

Hallucinatio

"A bright light leads you to heaven, your soul cursed to eternal damnation. Your spirit set free now wanders, your body buried rots in the ground..." - Blaine Cook

The ancient poet erred only a bit, for he was not aware of the true nature of the human components, their bidding to the Planes of Void and Matter, the ultimate reason why humans will never truly Ascend.

Have an Ice Day

Gamma Scorpii 5-C, your place for a Sub Zero holiday. But never try to reach the Sacred Site of the Cold Cubes, for they are guarded not only by the chilling wraiths using unbelievable -35K body temperature, but by the Viking TorBjorn himself, son of Olof, descending directly from the family of Growing Pains.

Kinematographics

Although displaying the Balance, the viewer may notice the absence of light and the Creatures of the Night lurking here and there, while goodwill is nowhere to be seen. Let it now be revealed that Balance doesn't exactly need the opposing forces to be Equal in every way. The multiverse as we know it, created Neutral Evil of alignment, was constructed in a way that only a small amount of Good is necessary to keep the necessary supply of Innocent Victims available for the purposes of much larger Hordes of Evil paraThings.

Temporal Mismatch

Our DM-303 which produces more than it takes is a dream of every engineer on uncivilized worlds. Due to the mental inadequacy and religious stubbornness, this Life/Matter Enhancer remains out of market for several sectors. Here at VooDooCon(TM) we feel that Research and Development is the key to success, and certain actions will be taken shortly to insure the market for our high class Device.

Utopian Kiertoajelu

Once upon a time, our beautiful and beloved Utopia was a paradise for eccentrics and science fiction geeks like us. Then it became popular, and tourist hordes raped it, just like the Hegemony raped Maiu-Covenant. These stories have been told before in previous episodes.

But the savagery couldn't go on for ever, and the Time of Cleansing finally came. Using selective orbital bombardment the human tourists were scorched to ash and their leftovers were Farcast to whence they

came. Needless to say, Utopia is now restored to its former glory.
