1.3 What is this?

What is This?

I don't know. Let's go report it to Wesker...

Whoops! Got carried away there!

This is just a small guide to a couple of Playstation games. Ratings, Cheats and a rough description. I have tons more cheats and stuff but this is just to see if there is a demand for this sort of thing.

So if you want more of this sort of thing or have some funky cheats for me then write to:

1.4 Who is this?

I'm Dave McLeish and I'm 15. I've been messing about with computers since I was about 3, when my brothers got their Spectrum in Xmas 1985 and since then I've been obsessed with them. I now own an Amiga 1200, 10 Mb Ram, CD-Rom and a 1.2 Gig HD, which I use for 3D Graphics, and basically wasting away my youth.

I also own a Playstation for the gameplaying part of computing and my favourite games from the Playstation are: Micro Machines 3, Tomb Raider, Die Hard Trilogy and I SORT of like Resident Evil.
