Chapter 1

Scart

1.1 Amiga Scart Lead

Connecting Your Amiga To a TV Via Scart Leads

By PARASITE of LSD.

WHAT YOU NEED

- 1 Amiga 23 Pin Video connector (Goes in RGB VIDEO port)
- 1 20 Pin SCART connector (goes in SCART TV)
- 6 core cable (Length as required)
- Small screwdriver
- Soldering Iron
- Solder

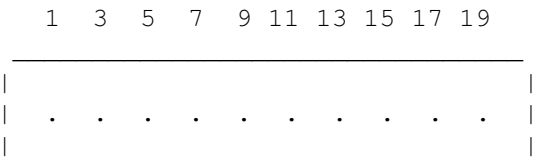

HOW TO ASSEMBLE IT

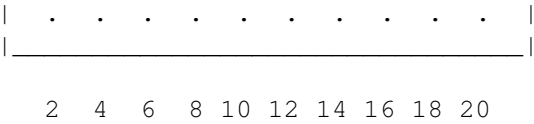

- Open the SCART and Amiga plugs
- Solder together the pins as shown below, via the cable
- Re-assemble the plugs
- And that's magic!

The correct connections on an Amiga to SCART lead should be as follows:

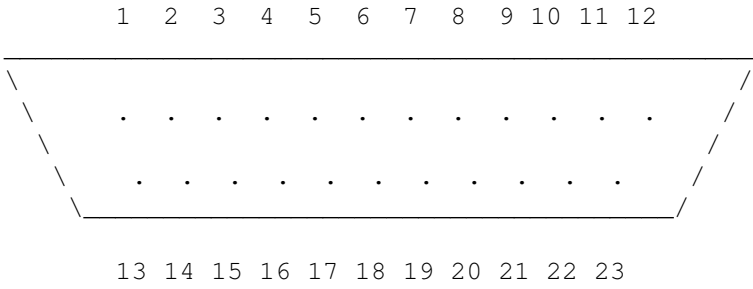

AMIGA	SCART
Pin 3 Analog red	Pin 15 red in
Pin 4 Analog green	Pin 11 green in
Pin 5 Analog blue	Pin 7 blue in
Pin 10 Composite	Sync Pin 20 Video sync in
Pin 16-20 Ground	Pin 17 Video ground

SCART CONNECTOR

AMIGA CONNECTOR

End.
