# Chapter 1

## Task

### 1.1 Object: Task

#### OBJECT DOCUMENTATION

Name: TASK  
Version: 0.9 Beta.  
Date: December 1997  
Author: Paul Manias  
Copyright: DreamWorld Productions, 1996-1997. All rights reserved.

### 1.2 Object: Task

#### OBJECT

Name: Task  
Module: Kernel  
Version: 1  
Type: Complex

#### DESCRIPTION

This object is off limits to normal programs, and is only for use by the system modules. The most a normal program will do with this structure is pass it around functions that ask for it. If you want to get some data from a Task structure, make sure you use the appropriate function to do so.
