

Sending;↯Converting FONT files

You can convert a Macintosh FONT file to a NeXT font in one of several ways. First, however, the FONT file must be moved to your NeXT computer.

683060_paste.tiff ↯

;Converting using menus.rtf;;↵
double clicking.rtf;;↵

310676_PixelDottedRulePadded.tiff ↵

To convert a FONT,
choose the 'Convert
Mac FONT' menu item

;Converting by
double clicking.rtf;;↵ ;Converting by drag and drop.rtf;;↵

To convert a FONT,
open it in the Workspace
Manager in the
normal way.

To convert a FONT,
drag the FONT's icon
and drop it on the
Convert Progress
window.
