808281\_CheckMark.tiff ↗ PicComments are specialized instructions that are stored in PICT files which are often appropriate for a particular output device (e.g. ImageWriter or LaserWriter)

258719\_CheckMark.tiff ↗ The recommended setting is to discard the PicComments, unless you know you need them.

172630\_CheckMark.tiff ↗ If you choose to discard PicComments, any comments in the source PICT file will be ignored and they will not be written to the eps file. This can make the eps file smaller.

897456\_CheckMark.tiff ↗ If you choose to preserve PicComments, they will generally be written to the eps file where they will do nothing.
