808281_CheckMark.tiff ↵ You will generally want to have the bitmaps packed, since this can make eps files with bitmaps in them significantly smaller.

172630_CheckMark.tiff ↵ You might not want to use packed bitmaps in some circumstances, because they will display very slowly on a Level 1 PostScript device (e.g. some laser printers, NeXTStep before 3.0).
