

Preferences

Euro Assistant Pro preferences are gathered in the "Preferences" dialog box, which is displayed by choosing the "Preferences..." command in the Edit menu.

- **Show flags in the Euro Assistant Pro window**

Check this option to associate to each currency and display in the Euro Assistant Pro window the flag of corresponding country.

- **Show flags in menus**

Check this option to display flags in the "Language", "Switch Currency" and "Base Currency" submenus and in all Currencies popup menus.

- **Draw a thicker frame around the active display**

Check this option to make the active display in the Euro Assistant Pro window more evident.

- **Startup iconized**

Check this option, if you want to startup Euro Assistant Pro always iconized, no matter how it was when you last quit. This option is particularly useful if you put Euro Assistant Pro in your "Startup Items" folder.

- **Warn me when I try to quit without having saved the tape**

Check this option, if you want Euro Assistant Pro to display an alert box before you quit reminding you that there are some tape entries which you didn't save.

- **Include thousands separators in files and text clippings**

Check this option, if you want to include thousands separators when saving or clipping the tape or when clipping amounts and rates by dragging and dropping ISO codes.

This option can be useful, if you want to export the tape's content, amounts or rates into a word processor, but shouldn't be checked if you plan to export them into a database or spreadsheet.

- **Tape clipping format**

The "Tape clipping format" popup menu lets you specify the desired tape clipping format. Five formats are available: Standard, Single Row, Table, Table - separated ISO codes, Table - no ISO codes. A sample clipping is shown. See also [Clipping the Tape](#) and [Saving the Tape](#).

- **Disconnect PPP if Euro Assistant Pro connected it**

Check this option, if you want Euro Assistant Pro to tell PPP to disconnect after euro exchange rates have been updated. Disabled if Open Transport 1.1.1 or higher is not available.

- **Update rates at startup**

Check this option, if you want Euro Assistant Pro to update euro exchange rates at startup. Select in the popup menu the desired frequency: daily or weekly. Disabled if Open Transport 1.1.1 or higher is not available.
