

Getting Started

Getting Started With MiniCalendar

The MiniCalendar folder contains the following items:

ere are descriptions of what you will find:

MiniCalendar

The MiniCalendar application is the actual program itself. Double-clicking on this icon launches MiniCalendar. You may wish to automatically launch MiniCalendar at startup by placing an alias to MiniCalendar in the "Startup Items" folder.

Extras

Additional items bundled with MiniCalendar that may be of interest to you.

Web Register

Use this program to register MiniCalender using the Kagi payment handling service.

MiniCalendar ReadMe

This is the icon for the MiniCalendar ReadMe you are currently viewing. Hold on to this documentation for future reference.

If you are missing any of these items, the best thing to do is to download the MiniCalendar archive again. If you have any problems, contact Public Access Software Software's technical support at [<support@pasoftware.com>](mailto:support@pasoftware.com). We will be happy to help.
