

Before You Begin

Before you start using Pixel Magician, please read the next section. Important information is provided about registration, hardware and software requirements.

Registration

Please take the time to fill out the registration card and mail it back to us. This will ensure that our customers have the latest changes and updates to Pixel Magician as well as technical support.

System Requirements

To use the Pixel Magician program, you will need the following:

- NeXTcube or NeXTstation computer with a floppy-disk drive and a hard

disk.

- NeXT System Software Release 2.1 or greater.
- NeXT laser printer or any PostScript® printer (only needed if you wish to print images).
