B.   *Plot Editor* best fits in the Utilities category.

C. *Plot Editor* is designed to allow users to manipulate plots created by any RoseApp. It allows a wide variety of parameters to be set and new objects to be added to the plot. It incorperates the standard *Plot Inspector* and *Data Set Inspector*.

D.   *Plot Editor* is used as part of the Integrated First Year Curriculum to provide futher functionality in applications without adding futher complexity to them.

E.   *Plot Editor* was developed under NeXTSTEP 2.1.

F.   *Plot Editor* requires no special installation.

G.   The Documentation folder included with the application is required for online documentation built into the application.   If it is removed, the application will still function properly, except for Help.
