

initWithKey:ordering:

Getting values key

ordering

initWithKey:ordering:

initWithKey:(NSString *)aKey ordering:(NSComparisonResult)anOrdering

Initializes a newly-allocated EOKeySortOrdering with aKey and anOrdering. anOrdering may be NSOrderedAscending (lowest-valued attribute first), NSOrderedDescending (highest-valued attribute first), or NSOrderedSame (no ordering). This is the designated initializer for the EOKeySortOrdering class. Returns self.

(NSString *)key

Returns the key that the ordering is defined for.

(NSComparisonResult)ordering

Returns the ordering defined for the attribute.
