

**NFSManager**

## **Import Directory panel**

4padPointRule2.eps ↗

Use this panel to select a directory you want to import.

This panel appears when you click the Select from NetInfo button in the Import Directory from NFS Server panel.

560028\_PointRule2.eps ↗

Select the domain where the file server is set up from the browser.  
Or type a pathname for the domain.

**paste.tiff** ↗

Select the directory you want to import here.
