

## Internet Sites for German Travel

The World-Wide Web provides plenty of information on places to visit in Germany. A great starting point is **Destination Berlin**. This site is put together by Lonely Planet and provides plenty of general information about this exciting city.

Surfing through numerous the web sites about Germany, a few gems appeared. First is the **Internet Cityguide Trier**, an interactive guide to Germany's oldest city. Photos and facts abound in this informative site.

Another site of interest is the **German Historical Museum, Berlin**. These web pages provide information on the current exhibitions, the collections, and general information. German, English, and French language versions are available.
