I need a picture/icon of a Orwellian Big Brother type person for and employee information management API I'm working on. The 1984 Macintosh add from the Superbowl would have a good example. Classic head shot.

I'm using this for now. Not quite the right thing.

Big Brother is watching you and knows all.

Mail Aliens

Here are some more good mail pictures for your co-workers who do not have mail pictures of their own.

From an H.R. Geiger
painting. The 1280x900
version is even creepier.

This one sort of looks like
Liza Minelli. I'm not sure who the
artist is, but this is not a Geiger.
