Proof of:

In any world menu, Canada must be considered the vichyssoise of nations-it's cold, half french, and difficult to stir. - Stuart Keate

Oh, and here's an icon or two to make it an official icon post.

Well, that was a very nice cockroach! Does someone have a very nice ant? I need this for a new BackSpace module which I'm doing.

As for Canada, Webster says this:

§ Geographical Names:

Can·a·da \'kan-ed-e\

Pretty helpful, huh?

This is the ant I'm currently using: Ant.tiff
