Hi everyone !

I am getting my HP ScanJet IICX driver in shape and since we just received a first free issue of UNIQUE, the new english magazine for the Parisian jet-set, I decided to have some fun. They have some nice pictures of cars, boats, people, objects, you name it.

Here's a picture of George Soros, the famous financial genius who made a lot of money for his investment funds by breaking down the European Union's fixed exchange-rate mecanism. I hope its not too bad.

Soros
