I wrote a little tool for archive automatically Usenet News. You can find last version on :

ftp.fdn.org  
~/pub/FDN/Tools/NewsArc.app.tar.gz

READ newsarc.ReadMe in Newsarc.App for install  
newsarc (terminal version) like an automate with CNews.

Icons for destination folder :  
<newsarc.dir.tiff>  
<newsarc.opendir.tiff>

these are from our company newspaper directory  
where we get a frame publication on-line.

(this process was my suggestion it used to be done only paper)
