Hi people,

glad to be back on the list. Having seen some of my old icons on the BGCD, I decided that I shouldn't spare any effort to be part of the next BGCD (3.0 ?). After all, that's my chance to become famous ;) ;)

I love NEXTSTEP, but I like my Newton too !

for those who don't know about Newtons. It is the PDA line made by apple

I have many programs in my uucppublic for the Newton ! Cool !

Geeze, it's 14:13 already. I'm gone¼  
Let me know what you think¼  
Bee seeing you,

Ed.
