Subject: Wanted: Crow icon + 3 Karate icons

Hello Everyone:

I'm looking for an icon of Crow Robot from MST3K. But I will also accept a crow (bird.) Has anyone got any?

And if you take then put back, so here are three 64x64 karate icons taken from a game that runs on the emulator that I am bulding of the Sinclair Spectrum. Anyway, I don't know if little graphics can be copyrighted but if so, these might be.

If someone wants to colorize them and repost, that might be nice...
