**Reply-To:** treed@gun.com

I've actually been sitting on this mail picture for some time - I had to think hard before posting it. However now that her employer is on the infobahn, making this image available seems more appropriate. I can send the much larger original with or without the scary whitened eyes to you if you seriously want it.

Tim

PS: For non-North American subscribers, Katie Couric is an uber-perky chat show host in the US.
