From a pack of LIPS cigarettes from Hong Kong. Looks very strange on the file viewer, and probably really weird on the dock. Very early '80s.

The image in the document should be centered better but it's too late to fix.

Tim

Here are two Rolling Stones icons. The first is their well-known logo; the second is (apparently, since I didn't create this one) from the cover or off some promotional material related to their latest album.
