

I think that this came from an application Charles Oei
<coei@next.com> wrote a long time ago, but I'm not sure. I may
have posted this before; my apologies if it's a repeat - I'm just
clearing some stuff out of my home folder. 2 and 24-bit images.

Tim

CubScout.dir.tiff

Reply-To: Paul Lynch <paul@seer.demon.co.uk>

It is in fact the Michelle/MyShell tiff from the SubProcess
example, by Joe Freeman. The SubProcess object was written by

CHarles Oei, and the icons were by David LaVallee, it says.
