

Create's Online Manual

paste.tiff ↪ *Note: if you don't see this menu item in Create's Info submenu, that means that you have not yet installed the CR_Online_Manual.pkg into the Create.app app wrapper. Quit Create, launch Installer.app by double-clicking on the **CR_Online_Manual.pkg**, and install it into the Create.app folder. Re-launch Create. You must also have DataPhile installed on your system - install it now if you haven't yet done so. You can access the manual database even if you don't have a license to DataPhile - just run it in Demo mode.*

✓ Select Info-> Online Manual... This will launch DataPhile and open the Create Online manual. If DataPhile is not licensed, you'll see:
