

MOREnet – the Missouri Research & Education Network

Address:

Missouri Research & Education Network
200 Heinkel Building
University of Missouri
Columbia, MO 65211

Email: morenic@more.net

Phone: (314)-882-2000

Description

MOREnet is a state network providing NSFNET communications and services to higher education, primary and secondary education, laboratories, and state agencies in Missouri. MOREnet's primary purpose is to develop, support, maintain, and cultivate applications for electronic interchange in support of its members. The secondary purpose of MOREnet is to foster information exchange and activities which support a broader cooperation among its members. MOREnet obtains its connection to the NSFNET through its membership in MID-NET.

MOREnet is funded by grants from the National Science Foundation and by membership fees. A Board of Directors comprised of representatives from each member has full policy and budgetary authority. Users of the network are represented through several advisory committees. Currently MOREnet supports IP traffic and is developing statewide AppleTalk and Novell IPX networks.

MOREnet's information bulletin board is accessible at;

umcvmb.missouri.edu (128.206.1.1),
IBM 3270 terminal emulation is required.
login with userid MOREINFO,
no password is required

Network Access

Any IP host on the internet may access MOREnet.

Who Can Use MOREnet

Any individual or organization needing internet access to support their education or research missions may request membership in MOREnet. Acceptable use of the network follows NSF guidelines. The needs of commercial organizations may be reviewed on a case by case basis.
