The following Protocol Implementation Conformance Statement was derived from the document titled “Final text of ISO/DIS 8602: Information processing systems Open System Interconnection - Protocol for providing the connectionless-mode transport service” dated 1987-06-30.

Status Symbols Used

- M Mandatory
- O Optional to implement. If implemented the feature may or may not be used.
- C Conditional. This item becomes mandatory if the related specification or requirement is satisfied

Support Symbols Used

- ☐ Indicates that the box should be checked if the implementation contains the item.

TABLE A. Connectionless Transport TPDU services

Index	Description	Reference	Status	N/A	Support

As I mentioned previously, we have developed a PICS proforma for ISO 8602. The tables for the PICS are enclosed here. If there is national or international interest in such a document, we would like to participate in its development.
