

Basic Asia, a unique collection of sounds recorded entirely on location in South East Asia. This 5-CD Box + 1.3.GB of free downloads is the perfect addition to your existing libraries: when you need a different crowd, a special door or an off angle atmosphere, Basic Asia has got it.

## The Unique Sound of Asia

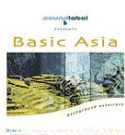

Asia has got a sound of it's own, the nature, the villages, the city, the traffic, the temples and the crowds,

it's an other world. This collection is not limited to the typical Asian genre. Basic Asia is the perfect addition to your existing libraries: when you need a different crowd, a special door or an off angle atmosphere, Basic Asia has got it. And the "tuk tuk," a typical Asian vehicle, has never before been recorded as versatile as here.

## Five Great Discs + 1.3 GB of free downloads.

### background exterior

Disk one contains perfect exteriors from a typical floating bamboo hut village with its own unique atmosphere. Furthermore characteristic recordings from, schoolyards, country side, cities, skylines, markets, restaurants and temples.

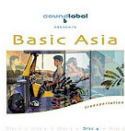

### background interior

Disk two focusses on interior backgrounds, cafe, hospital, post office, shopping mall, supermarket, metal workshop, textile mill, classroom, restaurant and several room tones (city apartments and a village temple).

### humans and animals

Disk three contains human and animal related sounds, crowds at a martial arts indoor sport events, teenagers, children, P.A. announcements, footsteps on gravel, dirt, wooden stairs and gangway, water buffalo, chicken, crickets and the 'njit njot'.

### transportation

Disk four takes you on the road with motorized transport; the Tuk Tuk is recorded in many variations, pass by's, start, stop, on board, at different speeds. And there is more: diesel bus and train, motorboat, Bangkok sky train, and even a two wheeled farm tractor.

### miscellaneous

Disk five contains more ambient recordings of city traffic, bus, train and sky train stations. Furthermore passenger elevator, weaving, fruit falling from a tree, household cooking. And a series of superb wooden temple doors (open, close, quiet, bang, reverberant and more).

#### bonus disk 6 + 7

Downloadable disk six and seven contain 117 extra tracks covering all categories, a total of 1.3 GB of sounds. More interiors, exteriors, traffic, temple doors, crowds, animals, elevators and even toys to make this the most complete Asian sounds library.

Basic Asia is available as a 5-cd box through various dealers around the world or at [www.soundlabel.com](http://www.soundlabel.com). Furthermore, every Basic Asia box comes with a unique serial number which grants the buyer to download disk 6 and 7 (1.3 GB) for free at [www.soundlabel.com](http://www.soundlabel.com).
