

Like ImIsion? Purchase it to puzzle your kids or friends. Then watch as they make a concerted (and sometimes humorous) effort to improve their spatial intellect (a trait most important to professional architects, engineers, and mathematicians).

When you use the order form below, the full 8 bit color retail version of The ImIsion Series v3.0 (ImIsion 369, ImIsion 449 and Level-1 puzzle files, literature, and Help) will be sent to you in the ImIsion box straight off the store shelf - ready for gift wrap. You save over 20% from the order form inside the ImIsion software.

The receiver of your gift will be automatically registered and may receive additional levels of the ImIsion Series puzzle files.

Mail to:
Decision Graphics
