

**TAZ** - A Windows game in which there are falling triangles that you try to fit together to form shapes of the same color. There is a different shape for each of 14 difficulty levels and you have to deal with new combinations of colored triangles at each new level. By switching off the shapes *TAZ* becomes a different game where the player tries to place triangles of the same color next to one another.

TAZ with 14 levels is \$29.99 + \$3.00 S&H in the U.S.
