

Diplodock Hex Editor Pro v 1.00.0025 Readme

Part I – Description

Hex Editor Pro is a hexadecimal editor that allows an average PC user to quickly edit files, by providing him with intuitive interface and powerful tools. Unlike other hexadecimal editors, Hex Editor Pro features a binary editor that allows user to edit separate bits.

Part II – Registration

You should register!

Q: Why?

A: Because:

- Every time you start the shareware version you have to wait 15 seconds ☹
- You cannot run shareware version more than 5 times ☹
- Shareware version reminds you about registration every time you start and exit the program ☹
- With Full Version you get:
 - **Free and Unlimited** usage ☺
 - Account at Diplodock.com ☺
 - 10% discount on future purchases ☺
 - Free customer support ☺
 - Free updates ☺
 - More to come!

Q: How?

A: Go to <http://www.diplodock.com/Store/cart.asp?action=add&ID=1>. Spend **ONLY 15.00\$!**

Q: What is after registration?

A: We will create an online account for you. From there, you will be able to download the full version of Hex Editor Pro.
