

## **Client Contax™**

This is version 1.0 of Client Contax™. It is extremely easy to use and is set up for those people who need an easy FileMaker Pro database of their contacts.

- **ACCESSING** Client Contax™. If you want to get into this file, you have to merely press **<return>** on your keyboard. To change the file or increase functionality, you will have to register this version. The cost to register this version and receive a free upgrade is \$15. Please send check or money order to Joe Caiola at 344 Shelter Road, Ronkonkoma, NY 11779. You will receive, for this contribution, an update disk, with the latest modifications and also a copy of the manual (yet to be released). In addition, you will receive future upgrades for free.

The nicest part about this program is that it has most of what you need built in. For example, you can sort on any number of fields and then print out on labels or reports, whatever you like.

If you like the program and would like to modify it, you will have to contact me. I'd much rather be contacted on CompuServe at 74716,243. I can be reached at 212-887-8515 also, should you have any questions and fax requests can be made to 212-887-8594. Please use this program and let me know if there is anything you would like added or changed.

Thanks,

Joe Caiola
