

## Some of the best for 1993

The best value in software this year has been upgrades to major applications - PageMaker, Illustrator, Xpress, Photoshop, Quicken, Think C, SuperPaint and Painter. If you use any major application then the best value is an upgrade.

Here is my selection of some of the essential, clever and just neat products released this year.

### Accounting

Best Books.....\$190

Quicken 4.0.....\$89

Simply the best personal and small business accounting software.

### CD

A Hard Day's Night CD.....\$62

Iron Helix CD.....\$169

Two well designed CD's with great content.

### Communications

Versaterm Pro v5.....\$406

The best set of Internet tools - emulation, telnet, ftp.

### Electronic Publishing

Acrobat Exchange Printer Driver - 1 user.....\$232

The most accessible serious technology in the coming wave of electronic text publishing strategies. A fundamental emerging technology.

### Fonts

Adobe Wild Type Pack - ATM w/14 Decorative.....\$70

FUSE 1/2/3/4/5/6/7 - 4 fonts.....each \$90

KeyFonts 100 TrueType & Postscript.....\$99

TypeCase v1/v2 - 130 fonts.....each \$120

Low cost type collections offer good value collections of Postscript and Truetype fonts. Adobe's Wild Type is welcome relief from the torrent of bland type and FUSE continues to feature the sharp end of cutting edge digital type design.

### Games

Heaven and Earth.....\$69

F/A-18 Hornet.....\$99

Indiana Jones and the Fate of Atlantis.....\$89

Kings Quest VI.....\$99

Lemmings.....\$79

Might & Magic III.....\$89

Spectre Supreme.....\$99  
The best of the small number of new Mac games.

## Graphics

Alias Sketch w/Photoshop 2.5 or Illustrator 5...\$1,484
