

Hard Disks - External

All of these offers similar performance. Larger drives are faster than smaller drives. All drives come with cables and formatting software. Fujitsu, Seagate and Digital drives have 5 year warranty. Quantum and Maxtor drives have 2 year warranty.

PowerBook Drives - Cases

The PocketSCSI is a small drive case with a T-piece SCSI plug and ADB power cable. The BackPac plugs onto the 25pin SCSI connector on the back of the Macintosh. If you want to use this case, check that you have enough clearance at the back of your Mac.

BackPac Case.....\$130
PocketSCSI Case.....\$152

RAID Drive Arrays - External

A RAID 0 Array uses a pair of drives with two SCSI controllers to provide the fastest drive access times. These drives are best suited to application that have sustained periods of disk access - audio and video recording and playback.
