CD ROM Player Bundles

The NEC CDR-74I is a multispin, multisession PhotoCD compatible CD Rom drive. Each drive is supplied with the FWB CDRom Toolkit software driver, cable and CD caddy.

The Sony CD player uses the same mechanism as Apple's CD 300.

Bundles 2,3 and 4 are available with the Sony CD Player rather than the Nec. Add \$50 to the Bundle price if you want the Sony CD Player.
