

Simulation & Strategy Games

We can provide you with advice about current popular Game titles and Darren Challis usually gets it right in his Australian MacWorld Games Review column. If you want to see games before you buy, then visit Try & Byte, Australia's best Macintosh Games shop at 39 Oxley Street, Crows Nest. They are open six days a week.

Please Note that the compatibility list under each description should only be taken as a guide. Whereever possible special requirements such as a Superdrive or 13" colour screen have been indicated.

While there haven't been many new Mac games released over the past year, the ones that have been released have been very good.

UMS II\$99

UMS II (UNIVERSAL MILITARY SIMULATOR -NATIONS AT WAR) The scope of UMS II is global - in both time and space. UMS II includes the ability to simulate naval campaigns in which the game's programmable weather systems can exert a major influence. Three Scenarios are included with UMS II: Alexander the Great (spanning the entire world as it was then known, from Spain to India). Assault on Fortress Europe (June 1- July 31, 1944), A Special fantasy scenario, demonstrating the flexibility and artificial intelligence of UMS II.
