Freebies

As well as our usual collection of demos we have the following disks.

DeskTape
Size limited demo for desktop mounting of DAT Tape Drives so the device can be used like a hard disk. Works with SCSI-2 DAT units from HP, Sony, Archive, WangDAT and Wangtek. Yes, it works with acceptable performance but requires 10M scratch area on your hard disk.

Contact Ease v2
A full version limited to 150 records of a powerful multiuser contact management program. Designed for phone contact and marketing management and will handle very large numbers of records.

QuickKeys Trial Pack
A full version of Quickeys that will work for 6 months from installation. It only allows four sets of shortcuts to be loaded at any time.

TeleFinder BBS 5 User
A full working 5 user version of Telefinder Host that will work until 30th June.

InfiniD 3D v2.5
A full working version of InfiniD 3D v2.5 that will work until 14th July. You will need a 5M/68030 colour system to use InfifniD 3D.

QuickMail 5 user Pack
We have a full working version of QuickMail v2.6 that is available to large networks for trial installation.
