

DiskFit Direct will give you peace of mind. It backs up disks quickly, easily and efficiently. You won't spend time dragging files to floppies again and again. Just launch the application, click twice, and put in a disk. It starts the backup automatically. When it's time to backup again, it only backs up files that are new or changed - saving you time and disks. It will even tell you which disk to insert.

Use any Macintosh removable disks, including, floppies, opticals, SyQuests, Bernoulli cartridges, and Flopticals.

Disk Fit Direct Pricing;
1 copy; £35.00.
