ShowPlace lets you create realistic, high-image 3-D graphics without having to lean complex modeling and rendering technology. Using your mouse, you can easily arrange 3-D objects into scenes which you view from any angle by looking through various cameras.

RenderMan: After creating your picture in ShowPlace, MacRenderMan will create a photo realistic rendering of your design. Pixar's MacRenderMan™ gives you the ultimate in visual dynamics with intricate detail and exquisite colour. Showplace/MacRenderMan images can be saved as PICT, TIFF or EPS files.
