

Complete management of fonts, desk accessories, FKEYs and beep sounds. Each Suitcase file is packed with different sizes of fonts, DAs, FKEYs and beep sounds. Hundreds of suitcase files can be accessed at one time, while Suitcase remembers which files you used during your last session and automatically reopens them when you restart. Print fonts, which may be displayed in their own typefaces on your font menus, can be kept in the same folder as the corresponding screen fonts, or even shared on a network file server. You can customize your own set of suitcases, to maintain consistency, or house style.

Suitcase Pricing;

1 copy; £42.00. 10 copies; £375.00. 25 copies; £925.00.
