

DriveShare lets you maximize your hardware investment by letting you share removable cartridges across your Mac network. Removable SCSI devices (Syquest, Bernoulli, Optical and CD-ROM drives) can be mounted using the universal Drive7rem CDEV supplied, and then set up to be shared across the network. Devices can have individual priorities set for other users access, with an override priority for the device owner.

Features include;

- Compatible with both System 6.0 and System 7
- Ideal for Mixed-system networks
- Up to five users sharing at one time
- Supplied with Drive7rem, the universal removable disk mounter

DriveShare Pricing;

1 copy; £119.95.
