

Turn your AppleTalk ImageWriter II into a full colour printer, with 250,000 colours. Install MacPalette II in just 20 seconds, with no complicated procedures. It will print from almost any standard Macintosh software application: graphics, word processors, or page layout. Colour text and graphics are all available in true WYSIWYG. Requires a Macintosh II family member, Macintosh LC or SE/30, or ImageWriter II; and a four-colour ribbon.

MacPalette AppleTalk Pricing;  
1 copy; £135.00.
