

This movie will show you the steps for reaching the White House!

Open up the Internet Surfer Group by Double clicking on it.

Double click on the "TCPMan WinSock" icon.

Select "Manual login" from the "Dialler" Menu.

Type "atdt1-513-771-0592", atdt followed by the phone number you use to access the Internet. You will need to wait for connection after dialing.

"CONNECT 38400" will appear to let you know that you have successfully connected. The number here is the speed at which you have connected, this is limited by your modem.

Host Name: prompt appears.

Type in "HOLOIP"

Type member name (type "guest" for new members!)

Type password (type " " for new members!)

Please enter your terminal type: "PPP"

Responds with your address.

Select Open URL from File menu.

Type : "http://www.whitehouse"  
World Wide Web -- White House!

After some image download, here's the White House!

After selecting what's new from the menu of choices -- you get more detailed choices. You have arrived!
