**<u>Into That Dark Night</u>**

This CD is compatable with: Windows 95, 98, NT & XP

**<u>Configuration:</u>**
Set screen color to minimum 16 bit (thousands)
Set screen resolution to 640 X 480 pixels (800x600 also possible)
Minimum free RAM required: 64 MB

**<u>General Notes</u>**

This program is rich in media features which tax the computer's resources.
Therefore, It is advisable to quit all other applications while using the program.

**<u>Setup</u>**:

Open the CD folder and double click the file "Setup.exe"

**<u>QuickTime</u>**

QuickTime is a system resource which is necessary for the playback of video on the CD. It must therefore be installed prior to running the program.
If QuickTime version 4 or higher is not present on your computer, you can install Version 5.02 from the CD.

*QuickTime is a trademark of Apple Computer, Inc.*
