

Neu Three is based on a typeface design by Neville Brody.

This release includes 2 files:

"Neu Three" -The screen font

"NeuThr" -The printer font (put in System Folder)

Neu Three is a lowercase only typeface, but we have repeated the letters in the uppercase positions (in case you hit the shift key by habit). Please be aware though, that only the letterforms in the lowercase positions have been kerned. Look for alternate letterforms for several letters in the option-keystroke positions.

Neu Three is being released as ShareWare. If you like it, you can register your purchase by sending \$15 to the address at the left. When we receive your registration, we will send you a disk containing the most up to date version of Neu Three along with a complete set of screen fonts.

Please feel free to make copies of Neu Three for friends and BBS's. We ask only that this release information be included with all copies.

If you are interested in other PostScript typefaces for the Macintosh, drop a note to our P.O. Box, or send Email to Compuserve: 70731,405 or AppleLink: PVOLK.
